INDEX TO VOLUME 63, 2012

AUTHOR AND TITLE INDEX

(Excluding *Book Selection* and *Viewpoints*)
* = Case-Oriented Paper

Abrams, H.:
(*see* Wong, H. J.)
Adams, N. M.:
(*see* Pavlidis, N. G.)
Ahaus, K.:
(*see* Timans, W.)
Akgün, İ.:
(*see* Erdoğan, G.)
Akyüz, M. H., Öncan, T. and Altınel, İ. K.:
Solving the multi-commodity capacitated multi-facility Weber problem using Lagrangean relaxation and a subgradient-like algorithm, 771
Allahverdi, A.:
(*see* Ladhari, T.)
Almada-Lobo, B.:
(*see* Camargo, V. C. B.)
Altınel, İ. K.:
(*see* Akyüz, M. H.)
Altınel, I. K.:
(*see* Battarra, M.)
Alvarez, A.:
(*see* Pacheco, J.)
Álvarez, J. F.:
Mathematical expressions for the transit time of merchandise through a liner shipping network, 709
Amatatsu, H., Ueda, T. and Amatatsu, Y.:
Efficiency and returns-to-scale of local governments, 299
Amatatsu, Y.:
(*see* Amatatsu, H.)
An, Y.-J., Kim, Y.-D., Jeong, B. J. and Kim, S.-D.:
Scheduling healthcare services in a home healthcare system, 1589
Anderson, M. H. and Sibdari, S.:
Investment decisions in the rent-to-own industry in the absence of inventory, 89
Andreeva, G.:
(*see* Lin, S.-M.)
Andrews, W.:
(*see* Hurley, W. J.)
Angel-Bello, F.:
(*see* Pacheco, J.)
Ansell, J.:
(*see* Lin, S.-M.)
Antony, J.:
(*see* Timans, W.)
Apley, D. W.:
(*see* Im, J.-K.)
Archibald, T. and Crook, J.:
Editorial, 1
Aslam, M., Mahmood, Y., Lio, Y. L., Tsai, T.-R. and Khan, M. A.:
Double acceptance sampling plans for Burr type XII distribution percentiles under the truncated life test, 1010
Åstebro, T.:
(*see* Chen, G. G.)
Atkinson, M. P., Gutfraind, A. and Kress, M.:
When do armed revolts succeed: lessons from Lanchester theory, 1363
Attema, A. E.:
Developments in time preference and their implications for medical decision making, 1388

Balakrishnan, J.:
(*see* Espey, R. L.)
Balibek, E. and Köksalan, M.:
A visual interactive approach for scenario-based stochastic multi-objective problems and an application, 1773
Bartlett, L. M.:
(*see* Edleston, O. S. S. T.)
Bascetin, A.:
(*see* Samimi Namin, F.)
Basu, P. and Nair, S. K.:
Analysis of back-office outsourcing contracts for financial services operations, 1679
Battarra, M., Öncan, T., Altınel, I. K., Golden, B., Vigo, D. and Phillips, E.:
An evolutionary approach for tuning parametric Esau and Williams heuristics, 368
Bauer, K. W.:
(*see* Rodriquez, J.)
Bayindir, Z. P.:
(*see* Topan, E.)
Ben Abdelaziz, F. and Masmoudi, M.:
A multiobjective stochastic program for hospital bed planning, 530
Benigno, S., Guerriero, F. and Miglionico, G.:
A revenue management approach to address a truck rental problem, 1421
Bertazzi, L. and Zappa, O.:
Integrating transportation and production: an international study case, 920
Bijvank, M. and Vis, I. F. A.:
Inventory control for point-of-use locations in hospitals, 497
Birgin, E. G., Lobato, R. D. and Morabito, R.:
Generating unconstrained two-dimensional non-guillotine cutting patterns by a Recursive Partitioning Algorithm, 183
Bischak, D. P.:
(*see* Silver, E. A.)
Bjørndal, E.:
(*see* Miguéis, V. L.)
Bjørndal, M.:
(*see* Miguéis, V. L.)
Bookbinder, J. H.:
(*see* Ke, G. Y.)
Borges, D.:
(*see* Portela, M. C. S.)
Bowers, J., Ghattas, M. and Mould, G.:
Exploring alternative routes to realising the benefits of simulation in healthcare, 1457
Bowley, D. K.:
(*see* van Antwerpen, C.)

SUBJECT INDEX

(This index includes all *papers*)

Adaptive search 597
Additive model 16
Aggregate planning 139, 1034
Air transport 1116, 1165, 1336
Allocative efficiency 72
Analytic hierarchy/network process (AHP/ANP) 322
Analytic network process (ANP) 1534
ANP 478
Arc routing 245
Architecture 122
Artificial intelligence 431, 1165
Assembly flowshop 839
Assignment problem 59, 821
Attack 969, 1545
Attainability 931

Banking 431, 539
Batch ordering 1143
Batch scheduling 646, 839
Batching machine 160
Bayes linear adjustment 1021
Bayesian 1374
Bayesian estimation 1351
Bayesian networks 431
Behaviour 1363, 1388
Benchmarking 38
Bi-criteria optimization 606
Bidding 762
Bi-level programming problem 28
Bi-objective 0–1 programming 582
Brand equity 1351
Business sustainability 1065

Capacitated minimum spanning tree problem 368
Capacity limitations 497
Carbon emissions 899
Cargo aircraft 1271
Carrier reputation 1400
Cellular reconfigurable manufacturing systems 1635
Challenge 1765
Chance constrained approach 530
Chinese postman problem 245
Circularity 72
Classification 1248
Closed-loop supply chain 1323
CO_2 abatement 1021
Coarse classification 539
Cognitive decision system 322
Cognitive mapping 431
Column generation 261, 1294
Combinatorial auctions 1400
Combinatorial optimization 1447
Competitive 201
Competitive location 1720
Complex Adaptive Systems (CASs) 909
Complexity theory 524, 909
Composite pricing contract format 1731
Compound Poisson demand 1143, 1499
Compromise programming 606
Computational analysis 392
Computational complexity 1018
Computer models 1021
Conflict 726
Conflict analysis 1363
Congestion 1089
Consignment and traditional policies 1708
Constraint programming 1447
Consumer credit 89
Container 1126
Contest success function 726, 969
Context-dependent DEA 38
Continuous replenishment 991
Continuous review (r, nQ) policy 1499
Contracts 790
Control by recruitment 931
Coordination 354
Corporate planning 470
Corporate social responsibility 1065
Coupled tasks 524
Cover models 1720
Credit scoring 539, 1374, 1645
Credit scoring model for technology-based SMEs 1051
Critical success factors 339
Cross-efficiency 38
Cross-efficiency evaluation 1079
Cumulative density function 1010
Cutting and packing 183
Cutting stock problem 261
Cutting stock problem 379
Cybernetics 418, 748

Dantzig–Wolfe 950
Data analysis: estimating survival models 306
Data envelopment analysis 16, 38, 59, 64, 72, 299, 470, 549, 631, 1079, 1089, 1098, 1153
Data envelopment analysis 982
DEA 406, 653, 715
DEA ranking 1079
Decision analysis 322, 470, 582, 1189, 1248, 1323, 1388, 1434
Decision making under uncertain system parameters 1752
Decision tree 1051
Decomposition 950
Defence 969, 1545
Defence studies 278, 1363
DEMATEL 478
Deteriorating items 1499
Deterioration 665
Different formats of preference information 582
Discrete approximation 771
Discrete bounding 1410
Dispatching 1492
Distributed optimization 460
Distributor's pallet loading problem 183
Draft position value 890
Due window 821
Due-date assignment 1284
Due-window assignment 1508
Dynamic linear model 1351
Dynamic programming 89, 160, 183, 839, 1021, 1213, 1336, 1765
Dynamic programming optimization 1421
Dynamics 726

Earliness-tardiness 821
Education 511, 909
Educational finance 1516
Efficiency 631, 715, 1516
Efficiency decomposition 64
Efficient frontier 1199
Elastic demand 201
Electricity distribution 982

Emergency departments 1457
Emergency medical services 1556
Empirical estimation 89
End-of-life 606
Energy 1600
Environmental load 606
Environmental management 1065
Environmental performance 653
Environmental studies 470
Equitable resource allocation 460
Evaluator effect 1051
Evolutionary algorithms 47, 368
Exclusivity 151
Exercise region 107

Facility location 201, 899, 1720
Failure models: survival analysis for credit risk modelling 306
Failure rate function 1010
Fair sequences 597
Family jobs 160
Financial services operations 1679
Fixed cost allocation 406
Fixed sequence 839
Flexible job-shop scheduling problem 683
Flow shop 130
Flow-allowance 1284
Flowshop 445
FMMSIC 218
Forecasting 1556
Franchising 151
Fuel economy 1271
Fuzzy analytic network process (FANP) 1534
Fuzzy ANP 218
Fuzzy data 59
Fuzzy entropy 218
Fuzzy judgments 1534

Game theory 354, 790, 865, 1165, 1434
Gaming 278
Gas 1189
Generalized vehicle routing problem 232
Genetic algorithms 683
Genetic local search algorithm 445
Glass recycling industry 28
Goal programming 530
Government 299
GRASP 569
Group support systems 736

Health service 79, 497, 1457, 1556
Health services 810
Hedonic regression 1351
Heuristic 1589
Heuristic 207
Heuristic approach 606
Heuristics 168, 392, 445, 497, 597, 1116, 1126, 1143, 1566
Higher education 478
H-MEASURE 1645
Home healthcare management 1589
Homeland security 790
Hospital 715
Hospital bed capacity management 530
Hospitals 79
Hotel selection 207
Hotels 549
Housing 762
Hybrid decision support system 218
Hyperheuristics 392
Hyper-heuristics 47

Identification error 1545
Impeding factors 339
Imperfect repair 846
Improved revenue-sharing contract 1655
Independent setup times 445
Inner-linearization 1693
Inno-Qual performance system (IQPS) 478
Innovation 478
Input allocation 406
Input-output table 299
Integer linear programming problems 920
Integer linear programming 1421
Integer programming 620, 683, 709, 1447
